CB7 集合式住宅

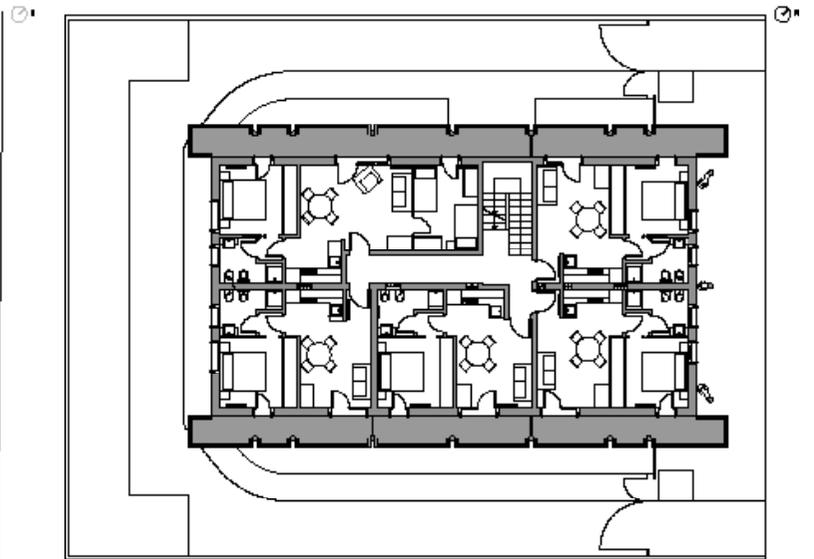

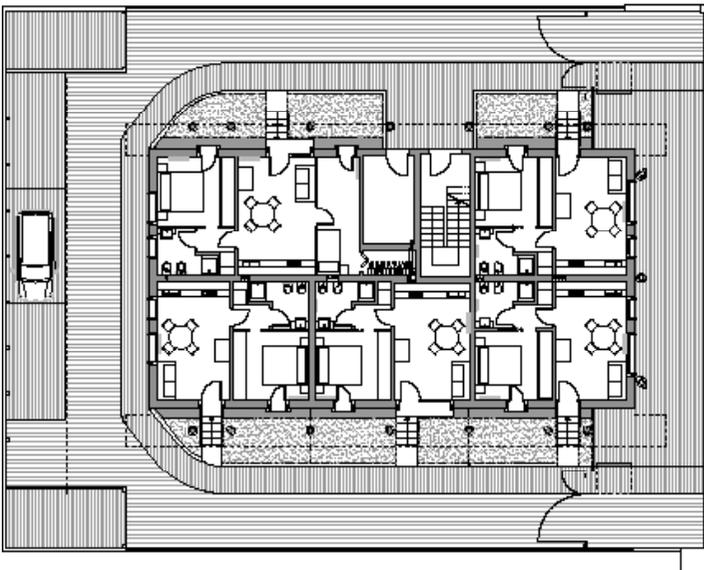

The former building is completely refurbished: a new floor is added; steel pillars hold up the new balconies. The vivid orange facades surmounted by metallic sailings are a new landmark in Cesano Boscone (southern outskirts of Milan).

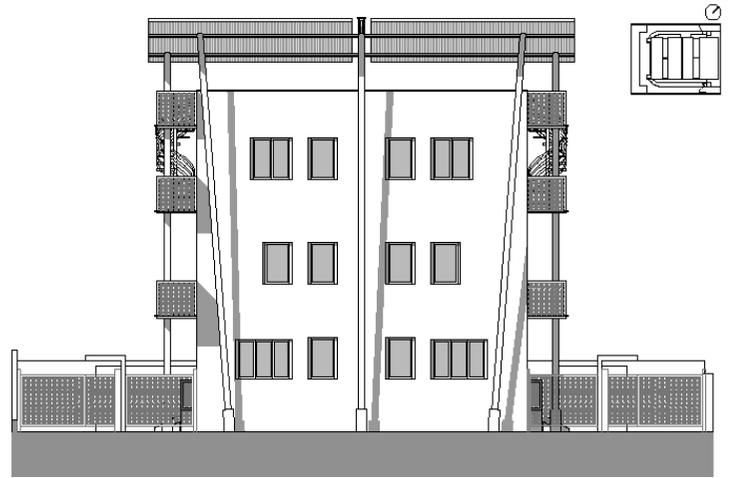

设计师对原有的建筑进行了完全的翻新：新建了一个楼层，钢制立柱支撑着新的阳台结构。金属结构支撑着亮橙色的建筑立面，该建筑成为米兰南部郊区新的地标性建筑。
